TECHNICAL SKILLS

Languages: Java, Python, C

Web Technologies: HTML, CSS, JavaScript, JSP

Databases: MongoDB Atlas, MySQL

Tools: VS Code, GitHub, Apache Tomcat

Frameworks: React.js, Node.js, Express.js, Spring Boot

Libraries: Pandas, NumPy

PROJECTS

CartNest – MERN Stack E-Commerce Application

React.js, Node.js, Express.js, MongoDB

- Developed a full-stack MERN e-commerce application enabling secure user authentication, product browsing, shopping cart, wishlist, checkout, and order tracking.
- Built RESTful APIs using Node.js and Express.js, integrated MongoDB Atlas for efficient data management, and implemented JWT authentication with bcrypt for secure access.
- Designed an admin dashboard to manage products, users, and orders, delivering a responsive and scalable shopping platform with an improved user experience.

VidyaGuide – AI Agent for Career Planning

React.js, Flask, Python, Tailwind CSS, JWT, Vite, Axios

- Developed an AI-powered career guidance platform that helps students with career planning, resume analysis, and interview preparation through an intelligent chatbot.
- Built secure JWT authentication, resume upload and analysis, chat history management, and responsive user interfaces using React and Flask REST APIs.

CropCare – Crop Disease Detection System

React.js, Spring Boot, Java, MySQL, JWT, REST APIs

- Developed a full-stack web application that enables farmers to detect crop diseases from leaf images using AI, helping identify diseases quickly and accurately.
- Built secure authentication using Spring Security and JWT, designed RESTful APIs, and implemented responsive Farmer and Admin dashboards with React.js.

EXPERIENCE / INTERNSHIP

MERN Stack Web Development Intern

SmartBridge Virtual Internship · May 2026 – July 2026

- Developed a full-stack MERN e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure JWT authentication, product management, shopping cart, and order management modules.
- Designed and integrated REST APIs with MongoDB for efficient data storage and retrieval.
- Built responsive user interfaces and collaborated in an Agile development environment to deliver project milestones.

ACHIEVEMENTS

- NPTEL Certifications: Programming in Java - 90% Elite + Gold Certification
- NPTEL Certifications: Fundamentals of Algorithms : Design and Analysis - 81% Elite + Silver certification with Top 5% Topper distinction.
- Cisco Certifications in Python Essentials - 1 and 2, JavaScript Essentials - 1 and 2.
- Participated in a 24-hour Hackathon (Data Dynamo 2.0), collaborating in a team to develop a functional prototype within the event timeline.
